

## Figures

### Running head: Safety and Tolerability for Mesdopetam

Figure 1. Mean plasma concentration-time curves following single oral doses of mesdopetam.

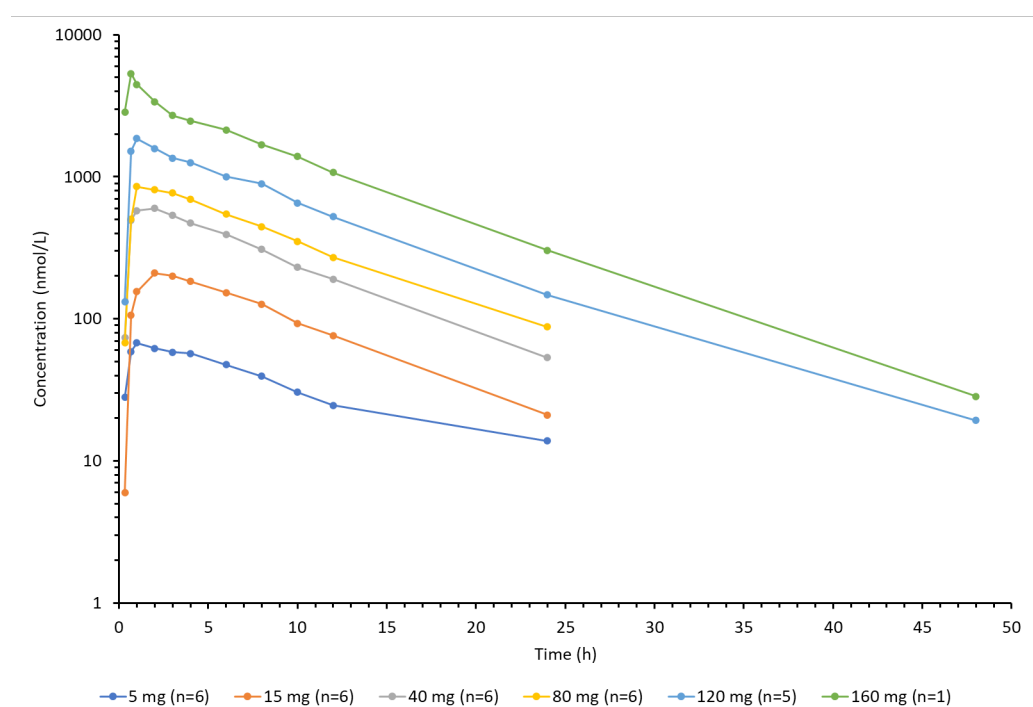

Figure 2. Mean plasma concentration-time curves following multiple oral doses of 40 mg or 80 mg mesdopetam once daily.

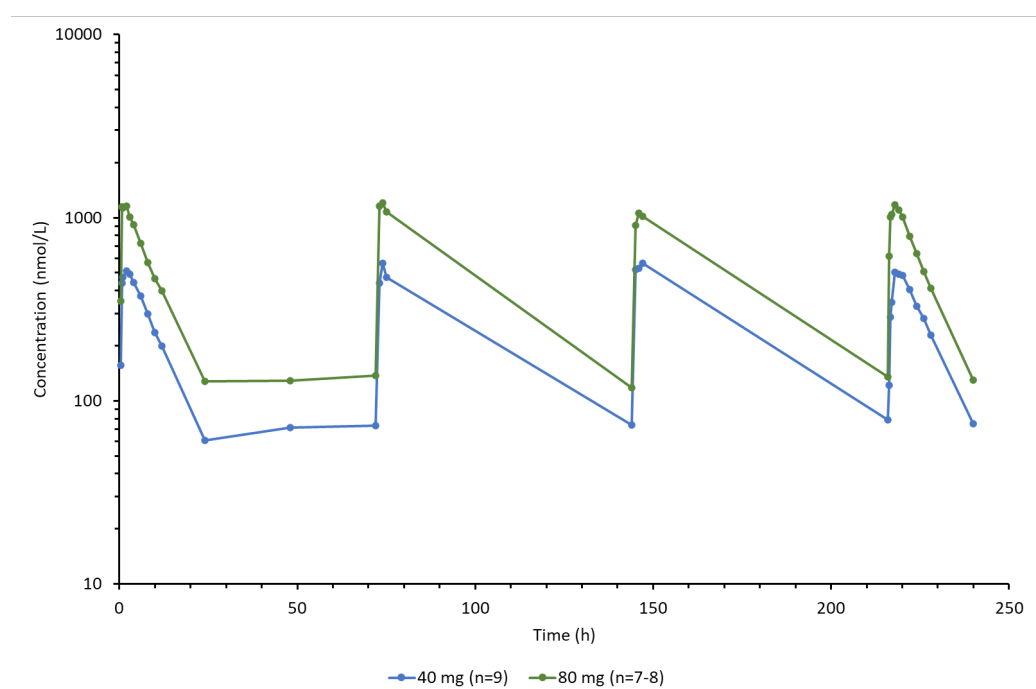

Figure 3 Mean plasma curves of mesdopetam and its main plasma metabolites M1 (IRL902) and M2 (IRL872) on Day 10 of once daily dosing with 40 mg (upper) or 80 mg (lower) mesdopetam.
