

Table-3. Independent predictors for glomerular filtration rate (GFR) by multivariate linear regression analysis.

	Standardized Coefficients Beta	t	p
BMI	-0,029	-0,515	0,607
APV	0,289	3,984	<0.001
EFT	-0,135	-2,037	0,043
CIMT	-0,388	-4,975	<0.001

BMI, Body mass index; APV, Aortic propagation velocity;
EFT, Epicardial fat thickness; CIMT, Carotid intima-media thickness.
