

Part 1a

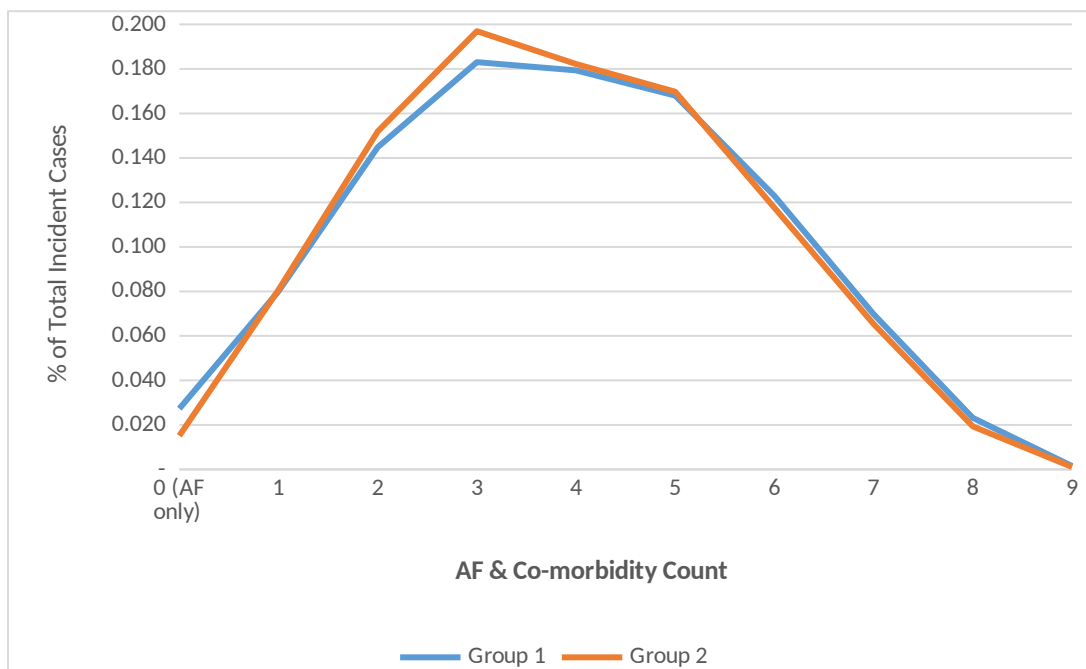

Part 1b

Fig 1 Prevalence (part 1a) and incidence (part 1b) rates for atrial fibrillation cohorts segmented by age group and gender

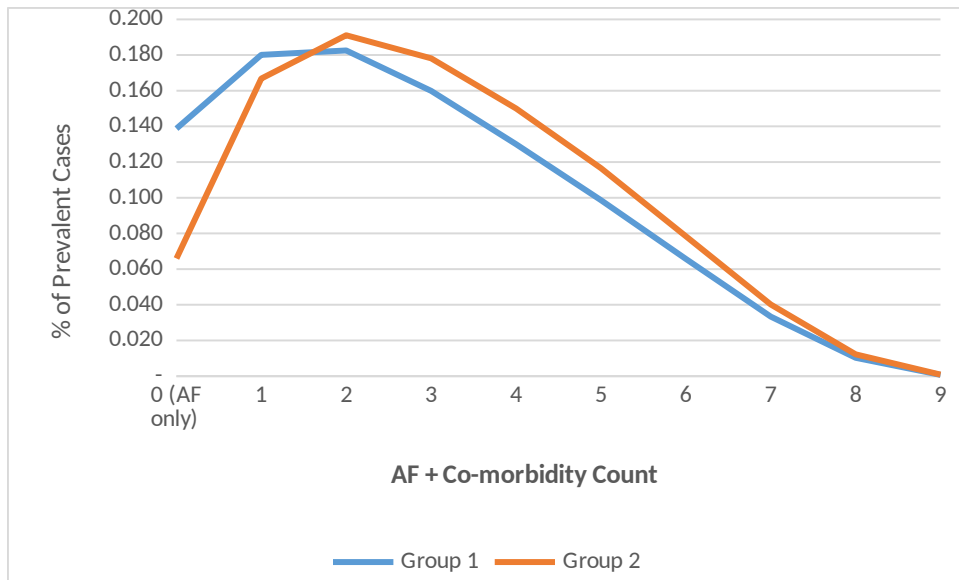

Part 2a for overall population

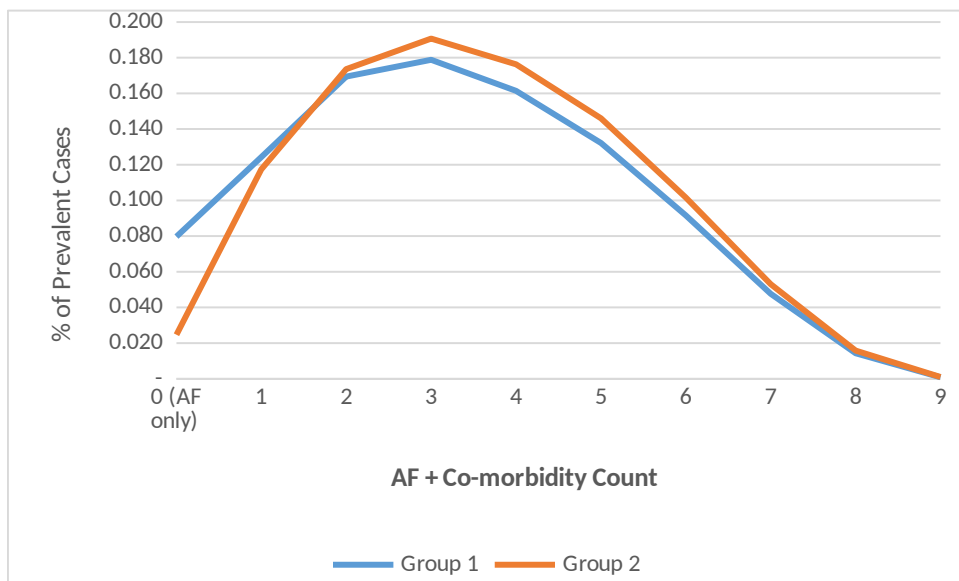

Part 2b for ≥ 65 years

Fig 2 Incident (parts 2a and 2b) and prevalent (parts 2c and 2d) cases (% of total incident or prevalent cases) of AF + co-morbidity count for: groups 1 (ICD 10 + pharmacy) and 2 (ICD 10 only); and overall population and ≥ 65 years. Cumulative incidence and prevalence are also shown in parts 2 f and 2 g

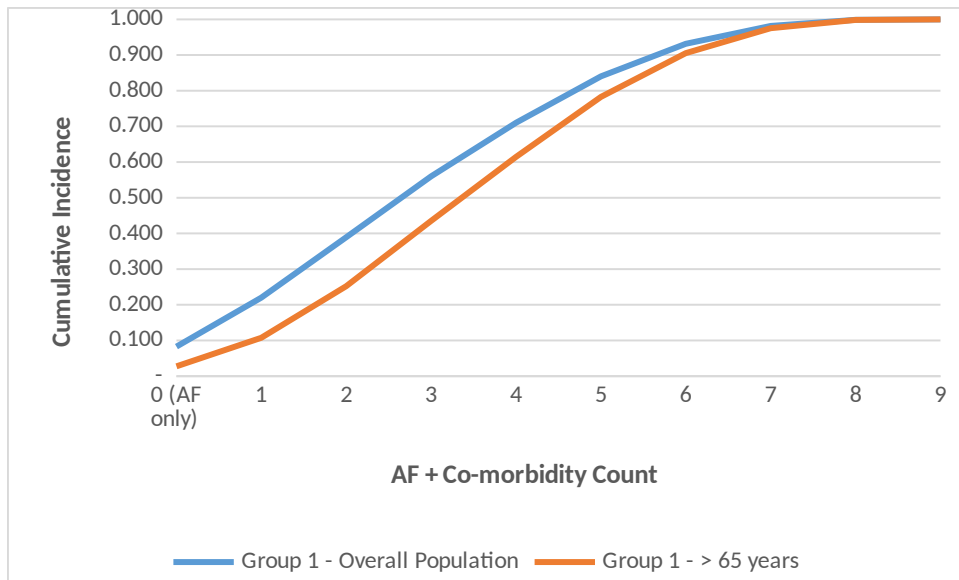

Part 2c for overall population

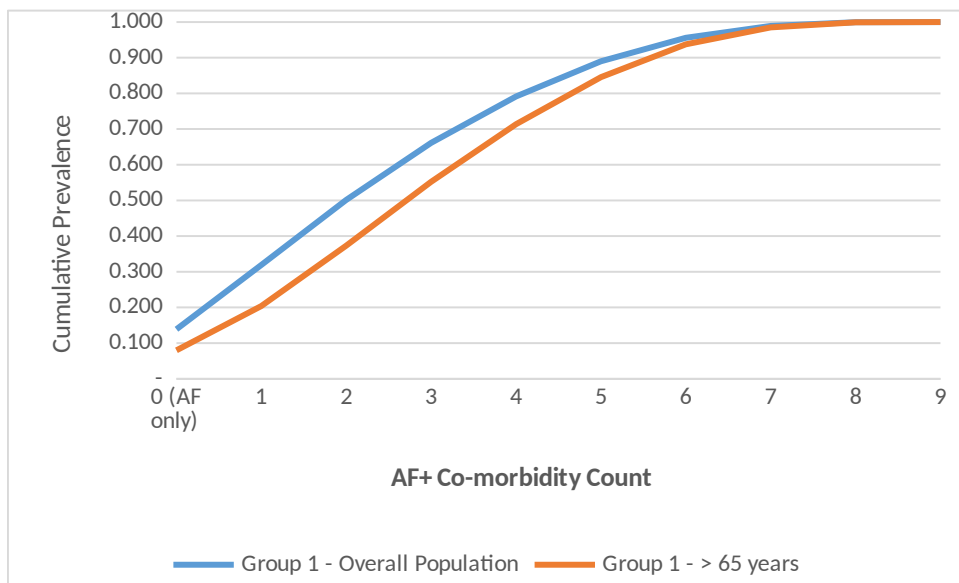

Part 2d for ≥ 65 years

Fig 2 Cont'd

Part 2e for overall population

Part 2f for ≥ 65 years
