

**FIGURE 3:** Comparison of the seasonal variation of net flow ( $Q_{net}$ ) in the Urucurituba Channel (URU1) in different years. The flows for the periods Sep/2014, Dec/2014 and Mar/2015 were measurements made by Santos et al. (2018). The flows of the periods Oct/2017 (dry season) and May/2018 (rainy season) are measurements of this work.
