

# Patent corpus

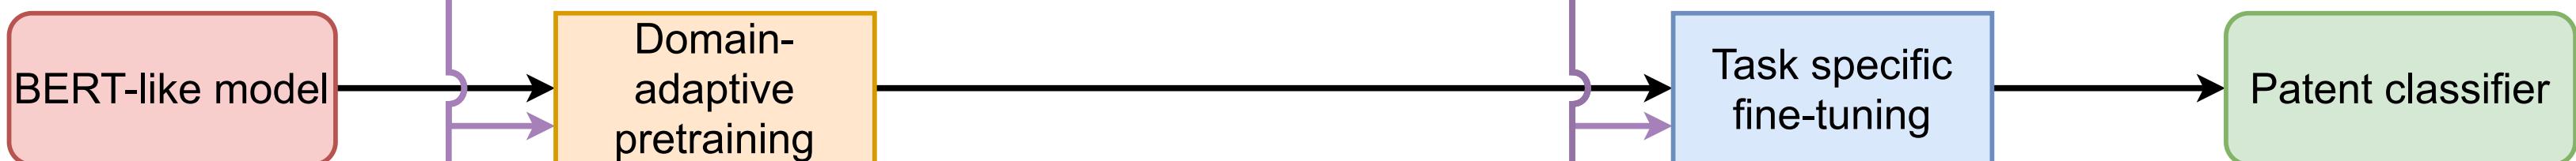

# Patent classification dataset

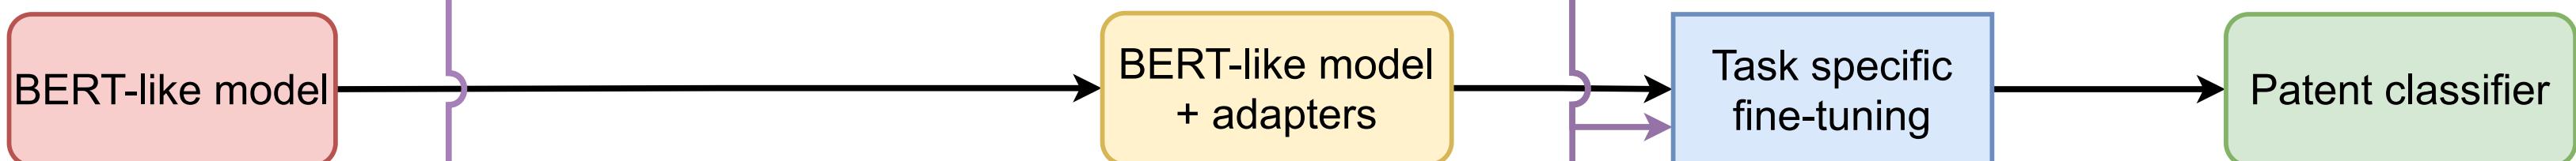

(i) BERT-like model → Task specific fine-tuning → Patent classifier

(ii) BERT-like model → Domain-adaptive pretraining → Task specific fine-tuning → Patent classifier

(iii) BERT-like model → BERT-like model + adapters → Task specific fine-tuning → Patent classifier

(iv) BERT-like model → Domain-adaptive pretraining → Domain-adapted model + adapters → Task specific fine-tuning → Patent classifier
